PROFILE INFO

👋 Hello! I'm Symon Falcatan, a dedicated Full Stack Developer from Quezon City, Manila, passionate about designing and implementing end-to-end web solutions that make a difference. With a love for coding and a commitment to quality, I continuously expand my technical repertoire and strive to deliver solutions that enhance user experience.

✉️ Let's collaborate on innovative projects! Feel free to explore my past work and get in touch.

EXPERIENCE

2023 - PRESENT

SPL Digital Marketing Group | Remote, Philippines

Full Stack Web Developer

- Developed and maintained a complex web application for a leading e-commerce platform, utilizing Laravel for the backend and React.js for the frontend. Improved the application's performance by 30% through code optimization and caching strategies.
- Collaborated with cross-functional teams to design and implement new features based on user feedback, leading to a 15% increase in customer satisfaction.
- Ensured code quality and maintainability by enforcing best practices, conducting code reviews, and writing unit and integration tests using PHPUnit and Jest.

Jan. 2024 - Feb. 2024

K&M McLean Property Ltd | Remote, Philippines

Wordpress Developer

- Collaborated with clients to gather requirements, design wireframes, and develop custom solutions tailored to their specific needs. Successfully completed 95% of projects ahead of schedule.
- Managed WordPress sites by performing regular updates, security audits, and backups. Ensured high availability and uptime by monitoring server performance and troubleshooting issues as they arose.
- Improved user experience by implementing custom post types, advanced custom fields, and AJAX functionalities, leading to a 30% increase in user engagement.
